And with Hagood, the plan review and selection process consists of a relaxing three days process vs. one stressful day picking out all of your fixtures, finishes, colors, etc. for your new home and incorporates talented experts such as a license interior designer, kitchen designer, landscape architect, low voltage/surround sound/TV engineer, electrician and closet organizer who provide their services without incentives or motivation to upsell you. Additionally, the breadth and depth of our included choices allows our clients the opportunity of selecting high quality and attractive items that are all contained within the base price without being forced to spend more money.
